

## MIRET & OCHOA

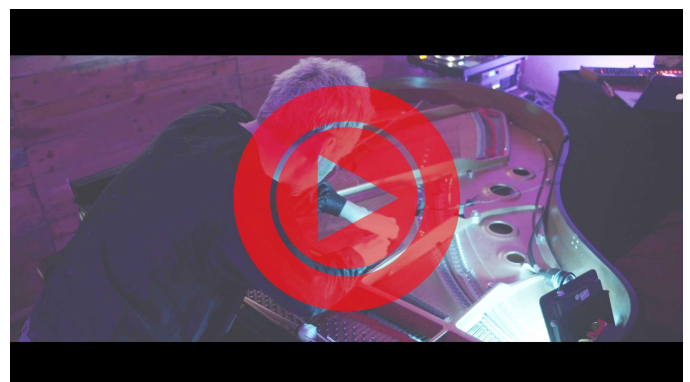

Influenced by the Berlin scene and blending styles such as experimental minimalism, melodic techno, and downtempo, this new duo—formed by electronic music producer MiRET and experimental composer and pianist Juan J. Ochoa—arrives to expand this sonic universe, infusing it with their Mediterranean roots.

Following in the footsteps of legendary duos like Kiasmos, Grandbrothers, and the more recent Two Lanes, MiRET&OCHOA join forces to create a refined, emotional, and vibrant sound. Their prepared piano expands its sonic possibilities through the use of new techniques, engaging in dialogue with synthesizers, drum machines, and electronic textures.

The extended piano, electronic music, and audiovisual art come together through the collaboration of composer and pianist Juan J. Ochoa and producer and DJ David MiRET.

Prior to the release of their debut EP, they present their first collaborative work, focusing on emotion and direct engagement with the audience, accompanied by an immersive stage design by visual artist INZIST. This evocative and expansive proposal, both complex and accessible, seeks to claim its place within the contemporary Mediterranean electronic scene, catering to an audience eager for fresh and moving experiences.
