

TERRAE

Terrae is an amalgam of sounds, rhythms and songs that distill a love for landscapes, a river and a land. Andreu Peral and Genís Bagés come together to pay tribute to the place that saw them grow up: the Terres de l'Ebre. Their songs tell the stories of humble, hard-working, steadfast people. The musical journey they propose is full of verses that resonate, move and make us smile.

Terrae understands tradition as a live organism in constant transformation. Their approach brings past and present together, where synthesizers, vocal effects, loops and samplers converse with the most essential sounds: the voice and percussion. A repertoire that gathers and transforms this intangible heritage, turning it into lively, contemporary, and rooted music.

A JOURNEY DOWNSTREAM THROUGH
THE STORIES AND CULTURAL HERITAGE
OF THE TERRES DE L'EBRE.

Nostre gra (our grain), their first LP is the living imprint of a territory: its speech, its voice and its customs. A declaration of dignity in the face of oblivion and of the centralism that often belittles the periphery. This work raises a wild yet poetic cry, a song to the land and its people, an impulse that moves forward with resolve and inspires a clear horizon: our fate, our, our grain.
